- J Service Details.** Outlines a detailed cost breakdown for your electric service and fees, as well as how charges are calculated.
- K Consumption Graphs.** Contains the past 13 months of energy use, detailing average daily usage and cost per day for the current billing cycle. On a customer bill, energy is measured in kilowatt-hours (kWh). A kilowatt-hour is a unit of energy and measures the amount of electricity a customer uses.
- L Customer Charge.** This charge is \$13 and helps to recover overhead and administrative costs.
- M Four-Tier Base Electric Rates.** The rate structure is tiered to promote conservation and to help cover your actual costs. Depending on how many kWhs you use, you will see one or more more tier listed. Those charges will vary month to month based on your energy use.
- N Regulatory Charge.** This charge goes toward power grid transmission costs, including new construction for state transmission and grid operation costs in addition to Electric Reliability Council of Texas (ERCOT) administrative fees. The charge is \$0.01491 per kWh for both inside and outside city limit residents.
- O Community Benefit Charge.** This charge funds the Customer Assistance Program, energy efficiency programs and street lighting service. The charge for residents inside the Austin city limits is \$0.00516 per kWh. For residents outside the city limits the charge is \$0.03440 per kWh.
- P Power Supply Adjustment.** This fee covers fuel costs for power plants as well as the total of power sales and purchases through the electric market. The Power Supply Adjustment is typically amended at the beginning of each year to reflect changing market conditions and the price of fuel and power. It is currently \$0.04371 for both inside and outside city limit residents.
